

D-Bact™ Industrial

7102ES

Revision Date: 18-Jan-2016

1. IDENTIFICATION

1.1 Product identifier

Trade Name: **D-Bact™ Industrial Cleaner · Disinfectant · Virucide · Deodorizer · Mildewstat · Sanitizer**  
 Product Code: 7102ES

1.2 Relevant identified uses of the substance or mixture and uses advised against

Uses of the Substance/Mixture: EPA Registration Number: 10324-81-74928  
 Disinfectant / Food-Contact Sanitizer. This product is intended to be diluted prior to use.  
 For further information refer to the EPA Registered product label. Uses other than those identified are not recommended.

**Product dilution information:** Disinfectant: 2-3½ ounces per 4½ gallons; Sanitizer: 1-2½ ounces per 4 gallons; Laundry sanitizer: 16 ounces per 100 pounds laundry. Refer to EPA registered label for product dilution/application directions for use.

2. HAZARD IDENTIFICATION

2.1 Emergency overview

Appearance: Clear solution with characteristic odor  
 Precautionary statements: Causes severe skin burns and serious eye damage  
 Harmful if swallowed

**GHS classification**

**Health**

Serious eye damage/eye irritation	Category 1
Skin corrosion/irritation	Category 1B
Acute toxicity (oral)	Category 4
Acute toxicity (dermal)	Category 4

<b>Product at Use-Dilution</b>	<b>Causes eye irritation</b>	<b>Category 2B</b>
--------------------------------	------------------------------	--------------------

2.2 GHS label elements, including precautionary statements

Hazard pictograms/symbols

Signal Word: DANGER!  
 Hazard Statements: H302: Harmful if swallowed  
 H312: Harmful in contact with skin  
 H314: Causes severe skin burns and eye damage

Precautionary Statements: **Prevention**  
 P262: Do not get in eyes, on skin, or on clothing  
 P264: Wash affected areas thoroughly after handling  
 P270: Do not eat, drink or smoke when using this product  
 P280: Wear protective gloves and eye, face and foot protection  
**Response**  
 P301+312+330+331: IF SWALLOWED: Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell. Do NOT induce vomiting.  
 P303+P361+P353: IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water  
 P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing  
 P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
 P310: Immediately call a POISON CENTER or doctor/physician  
 P363: Wash contaminated clothing before reuse  
**Storage**  
 P233: Keep container tightly closed  
 P234: Keep only in original container and dispose in accordance with applicable regional, national and local laws and regulations.

<b>Product at Use-Dilution</b>	
Hazard pictograms/symbols	None
Signal Word:	Warning
Hazard Statements:	H320: Causes eye irritation
Precautionary Statements:	
<b>Prevention</b>	P264: Wash affected areas thoroughly after handling
<b>Response</b>	P305+P351+P338+P337+P313: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

2.3 **Other hazards**  
No information available

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

3.1 **Information on components and impurities**

Chemical name	CAS number(s)	GHS Classification	Concentration, %
Alkyl (C <sub>12-16</sub> ) dimethylbenzyl ammonium chloride	68424-85-1	Serious eye damage/eye irritation: Category 1, Skin corrosion/irritation: Category 1B, Acute toxicity (oral): Category 3, Acute toxicity (dermal): Category 3; H301, H314, H318	>=7.125- <=7.875
Octyl decyl dimethyl ammonium chloride	32426-11-2		
Didecyl dimethyl ammonium chloride	7173-51-5		
Diocetyl dimethyl ammonium chloride	5538-94-3		
Other components		Not classified	Balance

**Product at Use-Dilution** Within the present knowledge of the supplier, this product does not contain any hazardous ingredients in quantities requiring reporting, in accordance with local regulations.

**4. FIRST AID MEASURES**

4.1 **Description of first-aid measures**

General advice: Show this material safety data sheet to medical personnel. Do not leave affected person unattended. Isolate exposed apparel for laundry before re-use.

Eye contact: Rinse eyes with water. Remove any contact lenses, and continue flushing eyes with running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Seek medical attention if irritation develops or persists.

Skin contact: Take off contaminated clothing and shoes immediately. Wash affected areas with plenty of water. Seek medical attention if irritation develops or persists.

Ingestion: Do NOT induce vomiting. Do not give anything by mouth to an unconscious or convulsing person. Rinse mouth with water. Seek medical attention.

If inhaled: Remove from area to fresh air. Seek medical attention if respiratory irritation develops or if breathing becomes difficult.

<b>Product at Use-Dilution</b>	
Eye contact:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation persists.
Skin contact:	No known effect after skin contact. Rinse with water for a few minutes.
Ingestion:	Get medical attention if symptoms occur
If inhaled:	No special measures required. Treat symptomatically.

4.2 **Most important symptoms and effects, both acute and delayed**

Risks: The most important known symptoms and effects are described in the labeling (section 2.2) and/or in section 11. Corrosive effects. Symptoms may include stinging, tearing, redness, swelling and blurred vision. Permanent eye damage including blindness could result. Prolonged or repeated skin contact may aggravate existing skin conditions. Inhalation of mists may aggravate existing chronic respiratory conditions such as asthma, emphysema or bronchitis.

4.3 **Indication of any immediate medical attention and special treatment needed**

Note to physician: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred. Treat symptomatically.

D-Bact™ Industrial

7102ES

Revision Date: 18-Jan-2016

**5. FIRE FIGHTING MEASURES**

Flash Point and Method: None

**5.1 Extinguishing media**

Suitable extinguishing media: The product is not flammable  
Use media suitable for the material that is burning  
Unsuitable extinguishing media: No data available

**5.2 Special hazards arising from the substance or mixture**

Special hazards during fire fighting: Container may rupture on heating  
On combustion or on thermal decomposition: May include carbon oxides, nitrogen oxides

**5.3 Advice for firefighters**

Special protective equipment for firefighters: As in any fire, wear NIOSH/MSHA approved, pressure-demand self-contained breathing apparatus and full protective gear.  
Specific firefighting methods: No special methods required. Move containers from area if it can be done without risk. Cool fire-exposed containers with water from side. Contain the extinguishing fluids by diking

**6. ACCIDENTAL RELEASE MEASURES**

**6.1 Personal precautions, protective equipment and emergency procedures**

Spill area may be slippery. Wear appropriate protective equipment (See Section 8).

**6.2 Environmental precautions**

Avoid contact of spilled material and runoff with soil and surface waterways

**6.3 Methods and material for containment and cleaning up**

Recovery: Stop leak if safe to do so. Absorb spills with vermiculite, fuller's earth, or sand. Shovel up and place in a non-metal waste container for disposal. Dike large spills with soil or sandbags to contain it and prevent its spread. Keep in suitable, properly labeled, closed containers for disposal.  
Decontamination/cleaning: Wash non-recoverable remainder with large amounts of water. Clean contaminated surfaces thoroughly. Recover the cleaning water for subsequent disposal.  
Disposal: Dispose of in accordance with local regulations  
Additional advice: Spill area may be slippery

**Product as Use-Dilution** Use a water rinse for final clean-up

**6.4 Reference to other sections**

No information available

**7. HANDLING AND STORAGE**

**7.1 Precautions for safe handling**

Technical measures: Does not require any specific or particular measures  
Advice on safe handling and usage: Wear appropriate protective equipment including long chemical resistant gloves, chemical splash goggles and protective footwear. Handle in accordance with good industrial hygiene and safety practice. Do not spray toward face. Wash affected areas after use. Do not taste or swallow. Avoid breathing vapors or mists. Use only with adequate ventilation. Product residue may remain on/in empty containers. All precautions for handling the product must be used in handling the empty container and residue. FOR COMMERCIAL AND INDUSTRIAL USE ONLY.

**Product at Use-Dilution** Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

**7.2 Conditions for safe storage, including any incompatibilities**

Technical measures for storage: Does not require any specific or particular measures  
Storage class (TRGS 510): Non-combustible, corrosive materials

**Storage conditions**

Recommended: Keep container tightly closed. Opened containers must be carefully resealed and kept upright to prevent leakage.  
Incompatible products: Hazardous reactions may occur on contact with certain chemicals. Refer to the list of incompatible materials section 10: "Incompatible materials"

**Product at Use-Dilution** Keep out of reach of children. Keep container tightly closed.

**7.3 Specific end use(s)**

No information available

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

Introductory remarks:

These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and piping systems for maintenance and repairs. Waste resulting from these procedures should be handled in accordance with Section 13: Disposal considerations.

Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers

**8.1 Control parameters**

Components with workplace control parameters

Components	Value	Control parameters	Basis
Not reportable			

**8.2 Exposure controls**

**Control measures**

Engineering measures: Good general ventilation should be sufficient to control airborne levels. Respiratory protection is not required if good ventilation is maintained.

**Personal protective equipment**

Respiratory protection: In operations where mists are generated, wear a NIOSH/MSHA approved respirator that has been selected by a technically qualified person for the specific work conditions.

Hand protection: Wear long chemical resistant gloves. Observe instructions regarding permeability and breakthrough time provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion and contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection: Wear chemical splash goggles.

Skin and body protection: Wear footwear protecting against chemicals, and impervious clothing. Choose body protection according to the amount and concentration of the substances in the workplace.

Hygiene measures: Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:  
 1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.  
 2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.  
 3) Wash exposed skin promptly to remove accidental splashes or contact with material.

Protective measures: Ensure that eyewash stations and safety showers are close to the workstation location, and that emergency equipment is immediately accessible with instructions for use.  
 The protective equipment must be selected in accordance with current local standards and in following proper use instructions from the supplier of the protective equipment.  
 Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.

<b>Product at Use-Dilution</b>	
Respiratory protection:	A respirator is not needed under normal and intended conditions of product use
Hand protection:	No protective equipment is needed under normal use conditions
Eye protection:	No protective equipment is needed under normal use conditions
Skin and body protection:	No protective equipment is needed under normal use conditions
Hygiene measures:	Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material: 1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored 2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet 3) Wash exposed skin promptly to remove accidental splashes or contact with product

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical and chemical properties listed represent typical properties and should not be considered product specifications. Refer to product Certificate of Analysis for Product Specifications or contact Mason Chemical Company for additional information.

## 9.1 Information on basic physical and chemical properties

Appearance:	Clear solution
Odor:	Characteristic odor
Odor Threshold:	No information available
pH:	5-8
Freezing point:	No information available
Melting point/range:	No information available
Boiling point/boiling range:	>100°C
Flash point:	Does not flash
Evaporation rate:	No information available
Flammability (solid, gas):	Not applicable
Flammability/Explosive limit:	No information available
Auto-ignition temperature:	No information available
Vapor pressure:	No information available
Vapor density:	No information available
Density:	0.99 g/ml, 8.3 lbs/gal (25°C)
Solubility:	Water solubility: soluble
Solubility in other solvents:	No information available
Partition coefficient: n-octanol/water:	No information available
Thermal decomposition:	No information available
Viscosity:	Low viscosity
Explosive properties:	No information available
Oxidizing properties:	No information available

## Product at Use-Dilution

Appearance:	Clear solution
Odor:	Characteristic odor
pH:	5-8
Flash point:	Does not flash

## 9.2 Other information

No information available

## 10. STABILITY AND REACTIVITY

## 10.1 Reactivity

No information available

## 10.2 Chemical stability

Stable and non-reactive under normal conditions of use, storage and transport

## 10.3 Possibility of hazardous reactions

No information available

## 10.4 Conditions to avoid

No information available

## 10.5 Incompatible materials

Anionic surfactants

## 10.6 Hazardous decomposition products

Oxides of carbon and nitrogen

## 11. TOXICOLOGICAL INFORMATION

## Product Summary:

Causes severe skin burns and serious eye damage. Harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly digestive tract. Vapors and spray mist may irritate throat and respiratory system and cause coughing.

No data available for the teratogenicity, mutagenicity, or reproductive toxicity of this product. No data available to designate the product as causing specific target organ toxicity through repeated exposure. No data available to designate product as an aspiration hazard.

## Information on likely routes of exposure:

Eye contact	Corrosive. Causes serious eye damage. Symptoms may include pain, burning sensation, redness, watering, blurred vision or loss of vision.
Skin contact	Corrosive. Causes severe burns. Symptoms may include burns, blisters, redness and pain (which may be delayed).
Ingestion	Harmful if swallowed. Causes burns/serious damage to mouth, throat and stomach. Symptoms may include vomiting, nausea, and/or feeling of general unwellness.

D-Bact™ Industrial

7102ES

Revision Date: 18-Jan-2016

Inhalation May cause irritation and corrosive effects to nose, throat and respiratory tract. Symptoms may include coughing and difficulty breathing.  
Sensitization No known effects

**Product at Use-dilution Product Summary:**

Causes eye irritation.  
No data available for the teratogenicity, mutagenicity, or reproductive toxicity of this product. No data available to designate the product as causing specific target organ toxicity through repeated exposure. No data available to designate product as an aspiration hazard.

**Information on likely routes of exposure:**

Eye contact Causes eye irritation. Symptoms may include irritation, watering, redness  
Skin contact No known significant effects or critical hazards  
Ingestion No known significant effects or critical hazards  
Inhalation No known significant effects or critical hazards  
Sensitization No known effects

**11.1 Information on toxicological effects**

**Acute toxicity**

Acute oral: LD<sub>50</sub> 344-366 mg/kg  
Acute dermal: LD<sub>50</sub> 1500-3340 mg/kg  
Acute inhalation: No information available  
Acute toxicity (other): No information available

**Skin corrosion/irritation**

Skin irritation: Corrosive. Causes severe burns

**Serious eye damage/eye irritation**

Eye irritation: Corrosive. Causes serious eye damage

**Respiratory or skin sensitization**

Sensitization: Not classified as sensitizing by skin contact

**Product at Use-dilution**

**Acute toxicity**

Acute oral: LD<sub>50</sub> >5000 mg/kg  
Acute dermal: LD<sub>50</sub> >2000 mg/kg  
Acute inhalation: No information available  
Acute toxicity (other): No information available

**Skin corrosion/irritation**

Skin irritation: No known significant effects or critical hazards

**Serious eye damage/eye irritation**

Eye irritation: Causes eye irritation

**Respiratory or skin sensitization**

Sensitization: Not classified as sensitizing by skin contact

**Mutagenicity**

Genotoxicity in vitro: No information available  
Genotoxicity in vivo: No information available

**Carcinogenicity**

Carcinogenicity: This product does not contain any ingredient designated as probable or suspected human carcinogens by IARC, ACGIH

**Toxicity for reproduction and development**

Toxicity to reproduction/fertility: No information available  
Developmental toxicity/teratogenicity: No information available

**Specific Target Organ Toxicity (STOT)**

STOT-single exposure: No information available  
STOT-repeated exposure: No information available

**Aspiration toxicity**

Aspiration toxicity: No information available

**Other Hazards**

No information available

**12. ECOLOGICAL INFORMATION**

**12.1 Toxicity**

Aquatic toxicity: Toxic to aquatic life

**12.2 Persistence and degradability**
